GROWER OF CHOICE VARIETIES

GLADIOLUS

Goshen, Indiana

With the arrival of a New Year come many worth-while resolutions. Yours should be to get the best Gladiolus bulbs from a reliable grower at a low price. We have both. We are looking forward to renewing former contacts, and making many new ones, this coming year.

We use the most modern equipment to grow and care for our Gladiolus, so it is to your advantage to buy your bulbs from a grower who has given his stocks the proper care. When you plant vigorous, healthy bulbs you know the results will be vigorous, healthy plants and outstanding blooms. You will be well pleased with the variety of colors we are offering you in our new price list.

The prices are the lowest we have ever offered our bulbs for, and the only reason for doing this is the hope that you will send us your order early. This will allow us to either ship your bulbs at once, or to set aside the filled order to ship when you desire. This does away with a lot of work when we are busy getting ready to plant next spring. You will have a two way advantage in ordering early, low price and early choice of varieties which makes it unnecessary to substitute or delay shipment.

As we have said before, we are selling Quality, not Bargains. Any one visiting our storage and fields will readily see why our bulbs are the Best. The careful, modern, scientific methods employed, in planting, growing, digging, curing, and storing enables us to say this, and is your guarantee. All bulbs are State Inspected.

VARIETY	GENERAL DESCRIPTION	Per 1000							Bblts Per Pk.
		& 100 Rate	No. 1 1½ in. & up	No. 2 1½ to 1½ in.	No. 3 1 to 1½ in.	No. 4 ¾ to 1 in.	No. 5 ½ to ¾ in.	No. 6 Under ½ in.
